brass-O

Brass-O fills the room with a delicate, diffuse light. It's a circular lamp in brushed brass made with high-end craftsmanship. Due to its finish the Brass-O has a luxurious appearance. Combining different dimensions will create an extraordinary spectacle of light. The vertical Brass-O seems to float in the air. You hardly notice the 2 thin cables on which it hangs from the ceiling. The Brass-O wall creates the effect of having a sun on your wall, giving an amazing glow to its surroundings. All circles are available in brushed, patinated brass.
